

MOBILE DJ

MOBILE DJ SPEAKER FOR iPod and iPhone

Take the party anywhere.

MOBILE DJ enables you to take the party anywhere with dual docks for iPod and iPhone, inputs and effects for microphones, and a powerful speakers system all in one box. You can play music and mix between songs on two different devices with the DJ-style crossfader, and sing or rap carrying just one portable unit. You can rock out for more than 12 hours on MOBILE DJ's internal, rechargeable battery or wall power. The large speaker and built-in amplifier ensure audio will be heard throughout the entire party. Speeches and Karaoke contests are easy when connecting the included microphone directly into MOBILE DJ. Sturdy, portable construction and a telescoping handle with wheels make MOBILE DJ the ideal item to bring the party anywhere. Includes a bag for storing all your cables.

iPod and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. Design and specifications are subject to change without notice.
